**Text or leave a voicemail (775) 235-6475**

Course follows The National Council on CHW Core Consensus Standards and is intended for paraprofessionals [c3council.org](http://c3council.org). Please reach out to your local jurisdictions to confirm all initial or Continuing Education requirements for your profession.

**Course held by Strategies Platform LLC**

A Community Health Worker (CHW) is a frontline public health worker who is a trusted member of and/or has a close understanding of the community served. This trusting relationship enables the CHW to serve as a liaison between health/social services and the community to facilitate access to services and improve the quality and cultural competence of service delivery.
