# Health Resources and Services Administration (HRSA)

**Mission:** To improve health outcomes and achieve health equity through access to quality services, a skilled health workforce, and innovative, high-value programs

**TENS OF MILLIONS** of Americans receive quality, affordable health care, and other services through HRSA's **90-PLUS PROGRAMS** and more than **3,000 GRANTEES**

# The Federal Office of Rural Health Policy

Established in Section 711 of the Social Security Act

The Federal Office of Rural Health Policy (FORHP) collaborates with rural communities and partners to support community programs and shape policy that will improve health in rural America.

## Cross Agency Collaboration

Works across HRSA, HHS, and several other federal partners to accomplish its goals

## Capacity Building

Increases access to health care for people in rural communities through grant programs and public partnerships

## Voice for Rural

Advises the HHS Secretary on policy and regulation that affect rural areas

# Rural Communities Opioid Response Program (RCORP)

- The [Rural Communities Opioid Response Program](#) provides direct funding and technical assistance to rural communities to improve access to behavioral health care services, including SUD/ODU prevention, treatment, and recovery.
- Through the RCORP initiative, more than **4 million individuals** living in more than **1,900 rural counties** across **47 states** and **2 territories** have access to substance use disorder prevention, treatment, and recovery services they would not otherwise have.
- In 2023, RCORP awarded more than **\$80 million** to rural communities in **39 states** to support key strategies to respond to the overdose risk from fentanyl and other opioids.

# Purpose of the RCORP Child and Adolescent Behavioral Health Program

The purpose of RCORP-CABH is to establish and expand sustainable behavioral health care services for children and adolescents aged 5-17 years who live in rural communities, and to prevent substance misuse.

- **Goal 1: Service Delivery.** Establish new behavioral health prevention, treatment, and recovery services for children and adolescents aged 5-17 years in the target rural service area.
- **Goal 2: Training and Peer Mentorship.** Improve the capacity of rural health care providers, paraprofessionals, non-clinical staff, and community members to care for and support children and adolescents aged 5-17 with behavioral health needs, by providing training and peer mentorship opportunities.
- **Goal 3: Community Partnerships.** Build community partnerships to ensure that children and adolescents, and their families, have access to community resources and human services that support prevention of, treatment of, and recovery from behavioral health disorders.

# Wall Chart Activity

- There are 6 sticky chart stations around the room. Different topics are listed at each station.
- Go to any chart and write what comes to mind when you see the topic. Talk with others at the same chart about the topic.
  - You will rotate to other chart stations of your choosing 3 more times. You will visit 4 chart stations total during this activity.
  - You will spend 10 minutes at each chart station.
- Visit the “questions” chart in between rotations to add questions about anything for the larger group. We will use this in the group discussion portion of the session.

# Debrief

- Talk with someone near you about the wall chart activity.
  - Something you learned
  - Something you found interesting
  - Questions you have
  - Anything!
- You have 5 minutes.
